- 1 All of the rules associated with Subpart CC are addressed by one checklist (Consolidated Revision Checklist 154) which is placed in RCRA Cluster VII. EPA encourages States to adopt the provisions of the following notices at the same time: 59 FR 62896, December 6, 1994; 60 FR 26828, May 19, 1995; 60 FR 50426, September 29, 1995; 60 FR 56952, November 13, 1995; 61 FR 4903, February 9, 1996; 61 FR 28508, June 5, 1996; and 61 FR 59932, November 25, 1996.
  
- 2 This checklist has been withdrawn. On October 30, 1995 (60 FR 55202), EPA issued an administrative stay of the regulatory provisions set forth in 40 CFR 279.10(b)(2) applicable to used oil destined for recycling that has been mixed with either characteristic hazardous waste or waste listed as hazardous because it exhibits a hazardous waste characteristic. However, on January 19, 1996, this administrative stay was vacated by the U.S. Court of Appeals for the District of Columbia. EPA published a final rule on June 28, 1996 (61 FR 33691) that clarified the regulatory status of the mixtures of used oil and hazardous wastes destined for recycling in light of the judicial vacatur. As a result, EPA has decided that a checklist is not necessary for these two rules.
